

Double Handed Distance

How it works - Similar to the single handed distance event, here the tournament-fly has to be cast as far as possible. But now the rod is up to 5.20 metres long and has to be moved with both hands.

Rod

Maximum length 5.20 Metres.

Reel

Any reel to take complete line and fastened to the rod.

Line

Any line, maximum weight 120 grams, in whole or spliced from separate bits.

Leader

Maximum length 5.20 Metres.

Fly

Standard Salmon tournament fly, size 6.

Court

At 100 metres distance, the court is 50 metres wide, measuring at a right angle to the perpendicular axis from the front centre of the platform.

Measuring Distance

On land, from the centre point of the front edge of the platform.

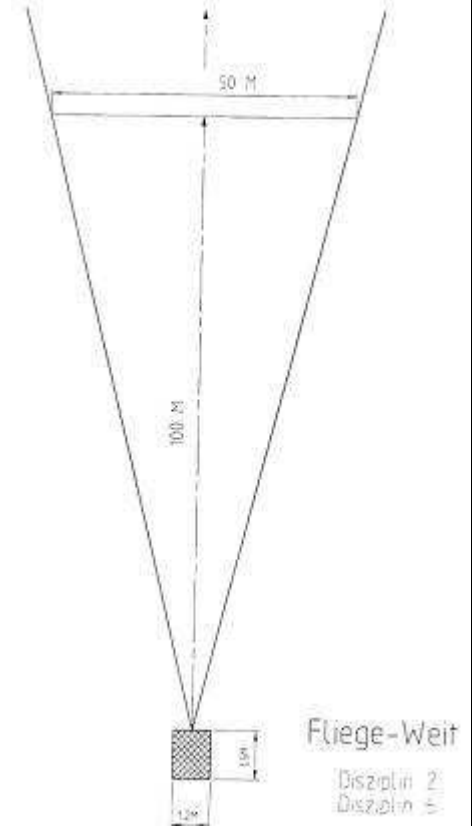

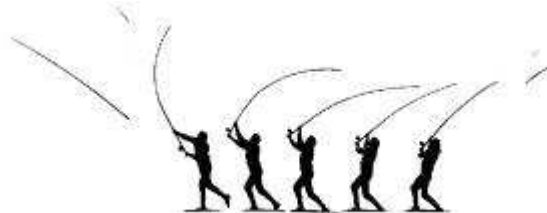

On water, from the front edge of the platform along the measuring device and at right angles to the Fly.

Score

Average of the casters three (3) longest casts to be the casters score.

Time

7 minutes. The line may be pulled out outside the court during the casting of the previous caster.

Tackle commonly used

John Waters used a Talon rod with a bit cut off the tip to stiffen the blank and a T120 gram Scientific Angler tournament line.
